PROFILE

Full-Stack Developer with 5+ years of expertise in web, mobile, and software development. Specializing in Python, JavaScript, and Flutter ecosystems with a proven track record of delivering secure, high-performance solutions. Background in IoT integration and cybersecurity implementation. Seeking to leverage technical abilities and innovative thinking to drive digital transformation in a forward-thinking technology company.

TECHNICAL EXPERTISE

Development	Python, JavaScript, Dart (Flutter), C/C++, Java, React, Django, Flask
Mobile	Flutter, Cross-platform development, UI/UX implementation
Database & Backend	Firebase, MongoDB, SQL, RESTful API architecture, GraphQL
DevOps & Tools	Docker, CI/CD, Git, Linux server management, Cloud deployment
IoT & Embedded	ESP32, Raspberry Pi, MQTT, ThingsBoard, Sensor integration
Cybersecurity	Penetration testing, Secure coding practices, Network security, Authentication systems

PROFESSIONAL EXPERIENCE

Senior Software & Web Developer

Feb 2020 – Present

Freelance & Upwork Contractor

- Architected and shipped 12+ web and mobile applications with a 100% on-time delivery rate and 95% client satisfaction score
- Designed and deployed a scalable IoT ecosystem for agricultural clients, resulting in 30% water conservation across 500+ hectares
- Engineered secure payment processing systems for e-commerce platforms handling €250K+ monthly transactions
- Implemented CI/CD pipelines reducing deployment cycles by 65% and increasing reliability through automated testing
- Mentored junior developers on best practices in secure coding and performance optimization techniques

Software Developer - Industrial Systems

Mar 2019 – Jan 2021

Major Petroleum Companies

- Developed mission-critical applications for real-time monitoring and analysis of petroleum processing operations
- Created automated data analysis tools that improved operational efficiency by 22% and reduced manual reporting by 45%
- Implemented robust cybersecurity protocols for industrial systems, eliminating security vulnerabilities
- Collaborated with cross-functional teams to optimize system performance across multiple facilities

KEY PROJECTS

Stor App	Cross-platform business networking application built with Flutter and Firebase, featuring real-time messaging, business profile management, and secure transaction processing. <i>Technologies: Flutter, Firebase, Stripe API</i>
GreenVibe & ChronoLux	Suite of e-commerce platforms with integrated inventory management systems, achieving 99.9% uptime and processing 1,000+ daily transactions. <i>Technologies: Django, React, PostgreSQL, Redis</i>
AI-Powered Smart Irrigation	IoT solution utilizing machine learning algorithms to optimize water usage in desert farming, deployed across 15+ agricultural sites. <i>Technologies: Python, ESP32, TensorFlow, ThingsBoard</i>

EDUCATION & CERTIFICATIONS

Engineering Degree in Informatics	Graduated 2019
Qasdi Merbah University, Department of Computer Science & IT	

Professional Certifications:

- Certified Ethical Hacker (CEH) - EC-Council
- Python for Data Science and Machine Learning - FreeCodeCamp
- Full-Stack Web Development - FreeCodeCamp
- Cloud Computing and DevOps Essentials - Linux Academy

LANGUAGES & ADDITIONAL SKILLS

Languages	Arabic (Native), English (Professional), French (Intermediate)
Soft Skills	Problem-solving, Strategic thinking, Team leadership, Client communication, Project management
Areas of Interest	AI/ML integration, Blockchain technologies, Cybersecurity automation, Cloud-native architecture
